

## **TOILET TRAINING POLICY**

Toilet training is an important part of a child's' development. Once parents feel their child is recognising and acknowledging that they need the toilet nursery will work in conjunction with parents to support this learning process.

Hygiene is an important issue within the nursery setting, and we have a responsibility to ensure that both children and staff have a safe environment to work and play.

Accidents are a natural part of toilet training, however we have to consider cross contamination issues. It is therefore our policy that after 3 accidents the child will be placed in a pull-up, but we will continue to take them to the toilet on a regular basis. If a child's' pull-up is dry and they are using the toilet then it will be removed.

Toilet training records will be completed on a daily basis during the early stages of toilet training. These will be discussed with parents at the end of each day.
